

I listen to the Air1 Radio Network in Boise, Idaho. If Air1 were not on the air in my town, it would force me to listen to radio that is not family friendly. For example, there are DJ's who talk about subjects that are offensive for children. They also use sexual innuendo that would be inappropriate for young listeners. Also, much of the content of today's music has vulgarity, sexual innuendo and overt sexual tones. It also may contain violent undertones which children and teens do pick up on. Air1 provides a radio station that is free from any vulgarity, profanity, sexual innuendo, violent lyrics and questionable subject matter for young listeners.

It gives the youth of my town an alternative to the radio stations that have the aforementioned problems but with the same great music that they enjoy.

It would be a grave injustice to rid the airwaves of a positive alternative to what's already dominating the market.

Please do not allow the new LPFM stations to take priority over current FM translator service thereby causing the Air1 station forced off the airwaves in Boise, Idaho.
